

Sai Charan Nethi

B.Tech - Computer Science and Engineering

Roll number: 23CS8174

Gender: Male

Date of Birth: 12/11/2005

Category: OP

E-mail: charannethiofficial@gmail.com

Contact: 9381699784

Address: Gajwel, Siddipet, Telangana, 502311

Educational Qualification

• Graduation

SEM	1	2	3	4	5	6	7	8
SGPA	6.43	8.0	7.38	7.86	7.62	9.00	-	-
CGPA	6.43	7.16	7.25	7.39	7.43	7.69	-	-

• Higher Secondary & Secondary

Year	Degree/Examination Institution/Board	CGPA/Percentage
2023	Class XII Excellencia Junior College, Shamirpet	98.6%
2021	Class X Excellencia Infinitum, Shamirpet	100%

Academic Achievements

- Selected as a Semifinalist in the highly competitive Flipkart Grid Hackathon.
- College Semifinalist, SIH(Smart India Hackathon)
- Solved **250+ problems** across platforms like [LeetCode](#), CodeChef, Code forces and GeekforGeeks in DSA using C++.
- Secured **99.29 percentile in JEE MAIN 2023** (Joint Entrance Examination) with **AIR 8134 in OPEN CATEGORY** and **1145 rank in EWS Category**.

Skills Summary

- **Programming Language** : C/C++, Python, JavaScript
- **Web Development** : MERN(MongoDB, Express, React, Node JS), REST APIs
- **Generative AI & Machine Learning**: LLMs, RAG Pipelines, Transformers, Neural Networks, Semantic Search
- **AI Frameworks & Libraries**: LangChain, Spring AI, TensorFlow, Keras, Scikit-learn, NumPy, Matplotlib, Streamlit
- **Database & Tools**: MongoDB, Git, GitHub, VS Code, FAISS
- **Course Work** : Data Structures & Algorithms (DSA), Object-Oriented Programming, Database Management System, Operating System, Computer Networks, Software Engineering
- **Soft Skills**: Leadership, Team Collaboration, Communication, Problem Solving, Adaptability, Time Management

Projects

• End to End Customer Churn Prediction System

[Link](#)

Tools used: ANN, Tensorflow, numpy, Streamlit, Matplotlib, Scikit learn

- Built an ANN-based binary classification model trained on **7K+ customer records** with **15+ input features**, achieving **~80–85% prediction accuracy**.
- Implemented a complete ML pipeline including data preprocessing (encoding, scaling) and model training using TensorFlow/Keras.
- Deployed the model as an interactive Streamlit web application, enabling real-time churn prediction with inference latency under **1 second**.

• E-commerce web application

[Link](#)

Tech Stack: Spring Boot, React.js, Tailwind CSS, Stripe, JWT, Redux

- Developed a responsive, production-ready web platform using React.js, Tailwind CSS, and Material UI, optimized for desktop and mobile devices.
- Designed modular and reusable React components to support scalable UI development and consistent user experience across the application.
- Implemented authentication-aware routing and state management, enabling secure login/logout flows, protected routes, and role-based redirection using JWT and Redux.
- Integrated secure payment workflows using the Stripe Payment Gateway, supporting multiple payment modes and protected checkout flows.

• AI Placement Assistant

[Link](#)

Tech Stack: LangChain, FAISS, Groq LLM, Streamlit, HuggingFace Embeddings

- Built an AI-powered placement assistant integrating **5 AI-driven modules** for resume analysis, ATS scoring, skill-gap assessment, interview question generation, and resume-based Q&A.
- Developed a **RAG pipeline** using FAISS vector search and Hugging Face embeddings, enabling semantic retrieval across **1000+ indexed resume chunks** from uploaded PDF documents.
- Implemented **4+ structured output schemas** using Pydantic to improve reliability and consistency of AI-generated evaluations and recommendations.
- Designed and orchestrated **5 LangGraph agent tools** with dynamic routing logic, reducing manual resume review effort by **80%+** during testing.
- Developed an interactive Streamlit application supporting end-to-end resume evaluation, personalized interview preparation, and skill-gap analysis through a **single unified interface**.

Positions of Responsibility

• Treasurer @ CSE Students' Society of NIT Durgapur (CSS)

02/2025 - till now

- Organised Burn Brain Hackathon in college premises and managed a budget of around 50k during the year 2025.

Certifications

• Complete Generative AI Course with LangChain and Hugging Face

[Link](#)

Covered LLMs, Prompt Engineering, RAG, Vector Databases (FAISS/ChromaDB), LangChain, OpenAI APIs, and end-to-end GenAI application development.

Extracurricular Activities

- Represented NIT Durgapur in All India Inter NIT Tournaments for 2 consecutive years in Volleyball and Kabbadi respectively (2023, 2024)
