

Sai Charan Nethi

B.Tech - Computer Science and Engineering

Roll number: 23CS8174

Gender: Male

Date of Birth: 12/11/2005

Category: OP

E-mail: charannethiofficial@gmail.com

Contact: 9381699784

Address: Gajwel, Siddipet, Telangana, 502311

Educational Qualification

• Graduation

SEM	1	2	3	4	5	6	7	8
SGPA	6.43	8.0	7.38	7.86	7.62	9.00	-	-
CGPA	6.43	7.16	7.25	7.39	7.43	7.69	-	-

• Higher Secondary & Secondary

Year	Degree/Examination Institution/Board	CGPA/Percentage
2023	Class XII Excellencia Junior College, Shamirpet	98.6%
2021	Class X Excellencia Infinitum, Shamirpet	100%

Academic Achievements

- Selected as a Semifinalist in the highly competitive Flipkart Grid Hackathon.
- College Semifinalist, SIH(Smart India Hackathon)
- Solved **250+ problems** across platforms like [LeetCode](#), CodeChef, Code forces and GeekforGeeks in DSA using C++.
- Secured **99.29 percentile in JEE MAIN 2023** (Joint Entrance Examination) with **AIR 8134 in OPEN CATEGORY** and **1145 rank in EWS Category**.

Skills Summary

- **Programming Language** : C/C++, Python, JavaScript
- **Web Development** : MERN(MongoDB, Express, React, Node JS), REST APIs
- **Generative AI & Machine Learning**: LLMs, RAG Pipelines, Transformers, Neural Networks, Semantic Search
- **AI Frameworks & Libraries**: LangChain, Spring AI, TensorFlow, Keras, Scikit-learn, NumPy, Matplotlib, Streamlit
- **Database & Tools**: MongoDB, Git, GitHub, VS Code, FAISS
- **Course Work** : Data Structures & Algorithms (DSA), Object-Oriented Programming, Database Management System, Operating System, Computer Networks, Software Engineering
- **Soft Skills**: Leadership, Team Collaboration, Communication, Problem Solving, Adaptability, Time Management

Projects

● End to End Customer Churn Prediction System

[Github](#)[Streamlit](#)

- Built an ANN-based binary classification model trained on 7K+ customer records with 15+ input features, achieving ~80–85% prediction accuracy.
- Implemented a complete ML pipeline including data preprocessing (encoding, scaling) and model training using TensorFlow/Keras.
- Deployed the model as an interactive Streamlit web application, enabling real-time churn prediction with inference latency under 1 second.
- **Tools used:** ANN, Tensorflow, numpy, Streamlit, Matplotlib, Scikit

● E-commerce web application

[Github](#)

- Developed a responsive, production-ready web platform using React.js, Tailwind CSS, and Material UI, optimized for desktop and mobile devices.
- Designed modular and reusable React components to support scalable UI development and consistent user experience across the application.
- Implemented authentication-aware routing and state management, enabling secure login/logout flows, protected routes, and role-based redirection using JWT and Redux.
- Integrated secure payment workflows using the Stripe Payment Gateway, supporting multiple payment modes and protected checkout flows.
- **Tech Stack:** Spring Boot, React.js, Tailwind CSS, Stripe, JWT, Redux

● Conversational RAG System for PDF Intelligence

[Github](#)[Streamlit](#)

Tech Stack: Python, LangChain, FAISS, Groq LLM, Streamlit, HuggingFace Embeddings

- Developed a Retrieval-Augmented Generation (RAG) system enabling conversational Q&A over 100+ page PDF documents using LangChain and FAISS vector database.
- Implemented document chunking and semantic embedding pipelines processing 1,000+ text chunks for efficient similarity-based retrieval.
- Integrated Groq LLM with conversational memory to achieve low-latency real-time responses and improved contextual answer generation across multi-turn interactions.
- Built an interactive Streamlit interface supporting simultaneous PDF upload and querying workflows, reducing manual document search effort by ~80%.

Positions of Responsibility

● Treasurer @ CSE Students' Society of NIT Durgapur (CSS)

02/2025 - till now

- CSS is a students' society which helps to grow and strengthen the CS student community of the college.
- I was selected as a web developer in the society.

Certifications

● Complete Generative AI Course with LangChain and Hugging Face | Udemy | 2026 [Link](#)

Covered LLMs, Prompt Engineering, RAG, Vector Databases (FAISS/ChromaDB), LangChain, OpenAI APIs, and end-to-end GenAI application development.

Extracurricular Activities

- Organised Burn Brain Hackathon in the campus premises through CSE Students' Society.
- Represented NIT Durgapur in All India Inter NIT Tournaments for 2 consecutive years in Volleyball and Kabbadi respectively (2023, 2024)
